

WEARING AN INFLATABLE COSTUME

I get the most interesting expressions from people when I talk about wearing and performing in an inflatable costume. Most people ask, "how does it stay inflated?" and with concern ask, "how do you breath in it?" So, I thought it was about time to show just how great an Inflatable mascot looks, how easy it is to wear, and finally confess that I do not need to hold my breath the whole time.

In my experience, Costume Specialists creates the most performance focused costumes in the industry. Their costume designs make it easy to bring a mascot to life and thrill any audience. As a performer, I love the look and the ease of wear and performance in an inflatable.
